JOSE MIGUEL MOLINA MORALES

Full Stack Web Developer

About me

Full Stack Web Developer with hands-on experience building complete applications using React, Node.js, and PostgreSQL. I leverage AI tools to accelerate development and stay current with modern practices, while focusing on clean architecture, security, and real-time functionality. Self-taught and driven by continuous learning, I bring strong problem-solving skills and attention to detail to every project

EXPERIENCE

Freelance Full Stack Web Developer

August 2023 – Present

- Develop complete web applications using React, TypeScript, JavaScript, Node.js, Express, and PostgreSQL.
- Integrate and consume external APIs to extend functionality.
- Implement secure authentication systems using JWT, 2FA, and password recovery via email.
- Apply security measures such as captchas and IP blocking.
- Design real-time features using WebSockets, including chat systems, notifications, and dynamic sales management.
- Create responsive interfaces with Tailwind CSS and manage user panels with role-based access control.
- Deploy and maintain projects on platforms like Netlify and Vercel.

Full Stack Web Developer Bootcamp - HACK A BOSS

March 2023 – August 2023

- Intensive training in full stack web development, working with technologies like HTML, CSS, JavaScript, React, Node.js, and PostgreSQL.
- Developed complete projects from frontend to backend.

EDUCATION

Full Stack Web Developer Bootcamp – Hack a Boss

March 2023 – August 2023
